

IMRAN P

Aspiring Full Stack Developer | Frontend Development | Career Transition from Radiography

Chennai, India | 8667025827 | github.com/build-with-imran | linkedin.com/in/imran-immu-19722b40b

PROFESSIONAL SUMMARY

Motivated aspiring Full Stack Developer with 4 years of professional experience as a Radiographer, now transitioning into software development. Skilled in building responsive front-end projects using HTML5, CSS3, JavaScript ES6+, React, Vite, Bootstrap, and Tailwind CSS. Completed two front-end projects, including RoadBuddy, a static website, and CareQueue, a React-based healthcare project. Brings strong attention to detail, patient-focused communication, workflow discipline, and problem-solving ability developed through hands-on healthcare experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, React | **Frameworks:** Bootstrap, Tailwind CSS | **Build Tools:** Vite | **Version Control:** Git, GitHub | **Productivity:** MS Office | **Core Skills:** Responsive Web Design, UI Development, Component-Based Development

PROJECTS

CareQueue | React Frontend Project

Live Demo: carequeue-app.vercel.app | GitHub: github.com/build-with-imran/Corrosive-di-oxide

- Built a React-based healthcare queue management project focused on improving patient flow, queue visibility, and appointment handling.
- Developed reusable React components for a structured, maintainable, and scalable frontend interface.
- Used Vite for faster development, optimized project setup, and smooth local build workflow.
- Created responsive layouts to support desktop and mobile users with clear navigation and readable interface sections.
- Applied healthcare domain understanding to shape practical screens for patient and staff workflow needs.

RoadBuddy | Static Frontend Project

GitHub: github.com/build-with-imran

- Developed a static front-end website using HTML5, CSS3, and JavaScript for a road assistance and travel support concept.
- Created a responsive and user-friendly interface with clean page sections, readable content, and practical navigation.
- Implemented mobile-friendly layouts to improve usability across common screen sizes.
- Applied modern CSS styling practices for an organized visual experience and consistent spacing.
- Practiced semantic HTML structure and frontend presentation skills through a complete static project.

PROFESSIONAL EXPERIENCE

Radiographer | Healthcare Sector | 4 Years

- Performed radiography duties with accuracy, responsibility, and patient-focused care in clinical environments.
- Worked with diagnostic imaging workflows requiring attention to detail, safety awareness, and time-sensitive decision-making.
- Coordinated with doctors, healthcare staff, and patients to support smooth diagnostic and patient-care processes.
- Maintained professionalism while handling high-pressure situations, patient communication, and daily operational responsibilities.
- Built strong communication, problem-solving, discipline, teamwork, and documentation skills.

EDUCATION

Full Stack Development | SoftLogic Academy, K.K. Nagar, Chennai | **Pursuing** | 2026

Bachelor of Vocational Studies in Radiology | Indira Gandhi Technological University | **2021 - 2024**
